(Left) The dark cherry cabinets, tub surround and mirror frame add a dramatic contrast to the soft spa style of the bathroom.

(Top) The linen closet was removed in order to add a beautiful focal furniture piece. The top lighted area is open for display, the center antique glass door section provides storage for towels and accessories and the bottom drawers are functional for clothing storage.

(Right) The steam, spa shower was enlarged and body sprays, rain shower head, and hand shower were added. Dark tumbled Emperador mosaic marble accents were added throughout the shower walls and floor, and repeated in the corners of the large Travertine floor tile.
