The Master Bedroom opens into this warm, inviting retreat. The original footprint remained the same, however, the size of the water closet was reduced and a closet removed to create a “His and Her” area to this Master Bath Suite. The creamy white vanities allow ample storage and a furniture look.

Another wall was removed and the shower enlarged to allow in natural light. The shower door was eliminated to create a true walk-in feeling. The use of natural stone materials add to a spa feel. A large framed glass and marble mosaic area highlights the shower and is repeated in the tub area niche.

The original tub with deck was removed and replaced with an elegant free-standing tub that overlooks a private nature area.

“His” vanity includes a custom travertine basin with rope molding.

**Products Used:**

Wood-Mode Cabinetry, Barcelona door style, Antique White with Charcoal glaze; (her basin) Kohler Devonshire; (his basin) custom travertine with rope molding; Kohler Finial brushed nickel faucets, tub filler and hand shower; Kohler Vintage tub; Aurora travertine shower with Sonoma Naples glass blend & custom-built frameless glass enclosure; Grohe shower faucet & body sprays; Hans Grohe rain shower, shower head & hand shower; Paradiso marble countertops; light walnut honed/filled travertine flooring; Kohler Memoirs toilet; Jeeves towel warmer.
