The kitchen was designed to blend with the Country Villa style of the home. Formality was contrasted by distressed wood, custom appliance panels, French style crown molding and bronze accents. This Mountain Lake Home kitchen was designed for cooking and entertaining.

The large furniture style island brings out the pattern of the exotic granite and exhibits professional style cooking.

Design Style: Traditional

The client wanted an old-fashioned style kitchen with clean, simple lines. She also wanted a soft industrial feel.

The desk/buffet area provides additional storage and display.

Design Style: Traditional
